Subject index

Volume 73 (2004)

Abstracting and indexing; Cataloguing; Classification; Controlled vocabulary; Database; Information storage and retrieval; Internet; Subject headings **73**, 57

Abstracts; Medline records; Titles and Mesh terms **73**, 515

Access control; Electronic healthcare record; Security; Privilege management; Role management; Authorisation; Enhanced TTP services **73**, 251

Access; Telemedicine; e-Health; Electronic health record (EHR); Health Policy; Authorisation **73**, 259

Acquired immunodeficiency syndrome; HIV; AIDS; Clinical prediction; Opportunistic infections; *Pneumocystis carinii* **73**, 743

AIDS; HIV; Acquired immunodeficiency syndrome; Clinical prediction; Opportunistic infections; *Pneumocystis carinii* **73**, 743

Allied health; Information retrieval; Evidence-based practice; Survey; Questionnaire **73**, 391

AMIA; Computer-based documentation; Electronic health record **73**, 665

Analysis method; Mobile computerized patient record (CPR); Usability; System design **73**, 363

Anonymization; Consumer informatics; Patient privacy; Confidentiality; Predictive modeling **73**, 599

Antibacterial agents/therapeutic use; Bacterial infections/drug therapy; Decision support systems, clinical; Expert systems; Evaluation studies **73**, 455

Attitude of health personnel; Computer training; One-on-one education; Electronic health records; Attitude to computers **73**, 341

Attitude to computers; Comparative study; Internship and residency; Medical records systems; Computerized; Questionnaires; User-computer interface **73**, 433

Attitude to computers; Computer training; One-on-one education; Electronic health records; Attitude of health personnel **73**, 341

Authorisation; Electronic healthcare record; Security; Privilege management; Role management; Access control; Enhanced TTP services **73**, 251

Authorisation; Telemedicine; e-Health; Electronic health record (EHR); Health Policy; Access **73**, 259

Bacterial infections/drug therapy; Antibacterial agents/therapeutic use; Decision support systems, clinical; Expert systems; Evaluation studies **73**, 455

Barriers; Decision support systems; Primary care; Computerised; Qualitative **73**, 357

Bedside flowsheet; Information exchange; Verbal communication; Physician documentation **73**, 349

Bioinformatics; Health informatics; Medical informatics; Biomedical informatics; Education; Universities **73**, 127

Biomedical informatics; Health informatics; Medical informatics; Bioinformatics; Education; Universities **73**, 127

Canada; Medical informatics; Distance education **73**, 157

Case mix; Case view; Diagnosis related groups; Graphic; Visualization; Economics; Hospital activity **73**, 713

Case view; Case mix; Diagnosis related groups; Graphic; Visualization; Economics; Hospital activity **73**, 713

Cataloguing; Abstracting and indexing; Classification; Controlled vocabulary; Database; Information storage and retrieval; Internet; Subject headings **73**, 57

Certificate services; Information society; Reliable mobile communications; Electronic communications; Citizen certificate; Population information system **73**, 317

Change management; Health informatics; Problem-based learning; Evaluation; Online resources **73**, 173

Chest radiograph; Teleradiology; ROC curve; Developing countries **73**, 65

Chief information officers (CIO); Curriculum; Health informatics; Evaluation; Professional certification; Graduate education **73**, 195

Citizen certificate; Information society; Reliable mobile communications; Electronic communications; Certificate services; Population information system **73**, 317

doi:10.1016/S1386-5056(04)00197-2

Classification; Abstracting and indexing; Cataloguing; Controlled vocabulary; Database; Information storage and retrieval; Internet; Subject headings **73**, 57

Clinical computerization; Willingness-to-pay; Contingent valuation; Hong Kong **73**, 403

Clinical decision support systems; Guideline adherence; Practice guidelines; Primary health care; Test ordering **73**, 705

Clinical information systems; Privacy; Electronic health record **73**, 271

Clinical management system; Patient rights; Team practice; Patient participatory health care; System use regulations **73**, 243

Clinical management; Patient logistics; Planning and control; ERP **73**, 493

Clinical practice guidelines; User-computer interface; Software design; Medical errors; Computerized provider order entry (CPOE) **73**, 639

Clinical prediction; HIV; Acquired immunodeficiency syndrome; AIDS; Opportunistic infections; *Pneumocystis carinii* **73**, 743

Cognitive engineering; User interface design; Think aloud method; Human computer interaction **73**, 781

Communication; Patient education; Computer systems; Stroke; Tailoring; Patient empowerment **73**, 751

Comparative study; Attitude to computers; Internship and residency; Medical records systems; Computerized; Questionnaires; User-computer interface **73**, 433

Competency; Education; Informatics; Nursing **73**, 591

Computer generated reminders; Primary health care; Electronic patient records; Opportunistic health screening; Elderly **73**, 695

Computer literacy; Computer user training; Curriculum issues; Education, Professional; Health informatics education; Staff development **73**, 205

Computer literacy; Curriculum; Medical informatics; Education; Graduate **73**, 139

Computer literacy; Health informatics; Medical informatics; Nursing informatics; Education; Recommendations; Information literacy; Computer skills; Information technology literacy **73**, 503

Computer security; Information systems security; Medical data security; Medical Data Protection; Electronic healthcare records; Role-based access control **73**, 305

Computer skills; Health informatics; Medical informatics; Nursing informatics; Education; Recommendations; Computer literacy; Information literacy; Information technology literacy **73**, 503

Computer systems; Patient education; Stroke; Tailoring; Communication; Patient empowerment **73**, 751

Computer training; One-on-one education; Electronic health records; Attitude to computers; Attitude of health personnel **73**, 341

Computer user training; Computer literacy; Curriculum issues; Education, Professional; Health informatics education; Staff development **73**, 205

Computer user training; Risk management; Professional competence; Safety; Ethics **73**, 151

Computer-based documentation; Electronic health record; AMIA **73**, 665

Computer-based training; Medical informatics; Health informatics; Education; Web-based training **73**, 117

Computerised; Decision support systems; Barriers; Primary care; Qualitative **73**, 357

Computerization; Follow-up; Physician; Intention to computerize; Predictors of computerisation; Physicians **73**, 415

Computerized medical records systems; Organ transplantation; Databases; Medical informatics applications **73**, 461

Computerized provider order entry (CPOE); User-computer interface; Software design; Clinical practice guidelines; Medical errors **73**, 639

Computerized; Attitude to computers; Comparative study; Internship and residency; Medical records systems; Questionnaires; User-computer interface **73**, 433

Conclusions; Discussion group sessions; Recommendations **73**, 325

Confidentiality; Consumer informatics; Patient privacy; Anonymization; Predictive modeling **73**, 599

Confidentiality; Information governance; Information security; HORUS **73**, 281

Confidentiality; Malaysia; Telemedicine; Data protection **73**, 217

Confidentiality; Security; Electronic patient record; National identification card; Electronic signature **73**, 235

Consumer health; Information retrieval; Internet; Interview study; Observation study **73**, 45

Consumer informatics; Patient privacy; Confidentiality; Anonymization; Predictive modeling **73**, 599

Content-based search; Medical image retrieval; Visual information retrieval; PACS **73**, 1

Contingent valuation; Clinical computerization; Willingness-to-pay; Hong Kong **73**, 403

Continuity of inter-organizational care; Information gap; Safety; Information content; Hospital discharge; Home health care **73**, 569

Controlled medical terminologies; Nursing terminologies; Provider order entry (POE); Nursing orders; Healthcare standards **73**, 625

Controlled vocabulary; Abstracting and indexing; Cataloguing; Classification; Database; Information storage and retrieval; Internet; Subject headings **73**, 57

Curriculum issues; Computer literacy; Computer user training; Education, Professional; Health informatics education; Staff development **73**, 205

Curriculum; Health informatics; Evaluation; Chief information officers (CIO); Professional certification; Graduate education **73**, 195

Curriculum; Medical informatics; Computer literacy; Education; Graduate **73**, 139

Curriculum; Medical informatics; Graduate education; Problem-based learning **73**, 465

Data protection; Malaysia; Telemedicine; Confidentiality **73**, 217

Database; Abstracting and indexing; Cataloguing; Classification; Controlled vocabulary; Information storage and retrieval; Internet; Subject headings **73**, 57

Databases; Organ transplantation; Medical informatics applications; Computerized medical records systems **73**, 461

Decision support systems, clinical; Antibacterial agents/therapeutic use; Bacterial infections/drug therapy; Expert systems; Evaluation studies **73**, 455

Decision support systems; Barriers; Primary care; Computerised; Qualitative **73**, 357

Decision support systems; Illness management; Patient preferences **73**, 797

Decision-making; Health informatics education; Ethics; Information technology; Health informatics **73**, 145

Declaration; Evaluation; Health technology assessment; Health information systems; Health informatics; Information technology (health care) **73**, 479

Developing countries; Chest radiograph; Teleradiology; ROC curve **73**, 65

Diabetes; Internet; Self management **73**, 687

Diagnosis related groups; Case view; Case mix; Graphic; Visualization; Economics; Hospital activity **73**, 713

Disability; Fuzzy sets; Health states; Health indicators; Quality of life; Public health informatics **73**, 647

Discussion group sessions; Conclusions; Recommendations **73**, 325

Distance education; Medical informatics; Canada **73**, 157

Distance learning; Internet; World wide web; Medical education **73**, 731

Distributed information system; Secure platform; Security infrastructure; Security domains; Grid security; Secure communication; Health information systems **73**, 291

Documentation; Speech recognition; Electronic medical records; Error rates; Medical errors; Medical notes; Information systems; Transcription **73**, 719

E-health; East Asia; Information age; Information technology **73**, 759

e-Health; Telemedicine; Electronic health record (EHR); Health Policy; Access; Authorisation **73**, 259

e-Learning; Telemedicine; Speech and language therapy; Home care **73**, 529

East Asia; E-health; Information age; Information technology **73**, 759

eBook; Medical education; Web-based training (WBT); XML **73**, 165

Economics; Case view; Case mix; Diagnosis related groups; Graphic; Visualization; Hospital activity **73**, 713

Education, Professional; Computer literacy; Computer user training; Curriculum issues; Health informatics education; Staff development **73**, 205

Education; Competency; Informatics; Nursing **73**, 591

Education; Curriculum; Medical informatics; Computer literacy; Graduate **73**, 139

Education; Health informatics; Medical informatics; Biomedical informatics; Bioinformatics; Universities **73**, 127

Education; Health informatics; Medical informatics; Nursing informatics; Recommendations; Computer literacy; Information literacy; Computer skills; Information technology literacy **73**, 503

Education; International educational exchange; Information management; Hospital information systems; Master program **73**, 807

Education; Medical informatics; Health informatics; Computer-based training; Web-based training **73**, 117

Education; Medical informatics; Health informatics; Hospital information systems; Health information systems **73**, 97

Education; Patient safety; Nursing; Evidence-based practice; Informatics **73**, 581
